Money, Culture & Education

Central Bank Museum, Trinidad & Tobago

DESIGN PARTNER:
Lord Cultural Resources

The Central Bank of Trinidad and Tobago is widely respected as a monetary policy authority and guardian of financial stability grounded in international best practices. They also are respected for their cultural and educational efforts in the country,

Bluewater Studio was chosen to provide an interactive and engaging state-of-the-art exhibition. Exhibit themes are strategically designed to engage, educate, and inspire visitors using a combination of role play, interactives, and historical objects.

"The Bluewater team offered the Bank flexibility to make changes consistent with our reality: budget, schedule and culture. During the project, there was always a personal touch from the Bluewater team and sincere interest in our progress."

Nicole Crooks
Senior Manager Human Resources,
Industrial and External Relations
