

*An early rendering of the planned restoration of Hinchliffe Stadium in Paterson, NJ*

# Hinchliffe Stadium Exhibition

## National Historic Landmark

Hinchliffe, one of the few remaining stadiums that hosted Negro League games, is being completely restored and has been designated a National Historic Landmark.

Over 20 Hall of Famers graced Hinchliffe's hallowed grounds, many of whom played in the Negro Leagues. Completed in 1932, the venue sits on a dramatic escarpment above Paterson's National Historic Landmark Great Falls.

An exhibition will be created in a new facility overlooking the stadium and the beautiful Paterson Great Falls National Park.

We are honored to be the primary contract holder for this historic project, for which Lord Cultural Resources will provide interpretive planning and content development, and Ralph Appelbaum Associates will provide the concept design.

Bluewater Studio will be managing the overall project and providing detail design, production, and installation of the exhibition. The project is scheduled for a late 2022 completion.
